2. BACKGROUND

Please describe an outline of waste management in your province or municipal:

Luganville like other Post world war II townships lacks proper civil arrangements which makes waste management difficult and costly to manage. Waste appears mostly in solid form and liquid is a portion. Waste collection is the core activity but basic recycling, awareness and CBD cleaning is maintained.

3. CURRENT SITUATION OF WASTE MANAGEMENT

Please describe a current situation of waste management by category in your province or municipal. You can attach relevant documents to avoid the detail explanation in this form.

By-law

Please describe its contents and status if any.

Solid waste management office of LMC has a gazetted By-law No. 1 of 2013

Waste Management Plan (Master Plan)

Please attach the latest plan if any.

- still in draft.

Waste Generation Amount

Household, market, business etc. Please refer to the note in pg. 1.

- we did not do any.

Waste Collection and Transportation

Please describe number and type of waste collection vehicles, waste collection method etc.

- we have 2 waste collection vehicles.
- Done by LMC waste vehicles and also by private collection that must pay a gate fee before dumping.

Dumping site/Landfill site

Please attach map showing location of dumping site etc.

Composting

Market compost, home compost etc.

We have a compost bin at market that compost the market waste. SHIBUSHI MODEL.

4. UPCOMING PLAN

Please describe the following year's action plan:

Since we plan to proclaim Luganville as Zero waste city in 2020 - we are using this year and 2021 for preparation time. Next year we will use the time to standardize our waste collection stands, create mobile collection station for waste transfer, improve waste segregation at the dumpsite, update our Data collection service, increase the number of waste collection vehicles.

5. REQUEST FOR SUPPORT TO DEPC

Please let us know if your province and municipal faces difficulties in planning, implementing and monitoring of waste management. Requests will be considered and decision of support and/or suggestion will be given by DEPC accordingly.

If DEPC could skill us with calculating waste generation amount,
